SpeedLine Marketplace

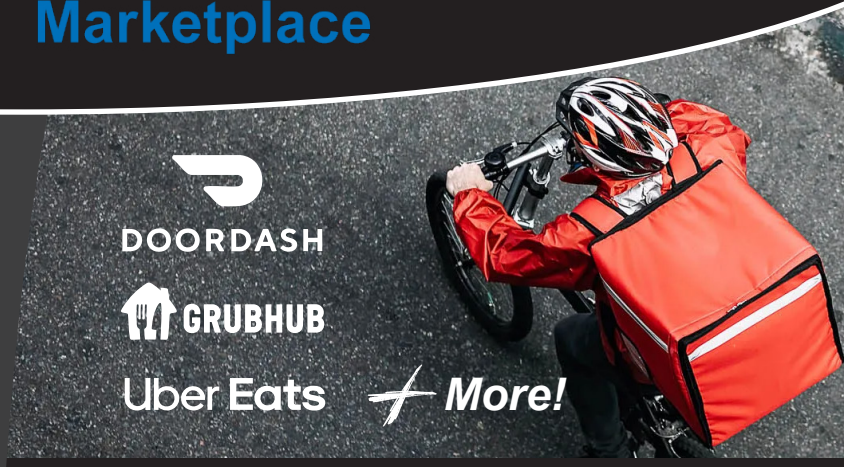
Why SpeedLine Marketplace?

A Delivery Management Operations Game Changer

Managing multiple online ordering channels can be complicated. SpeedLine Marketplace provides an all-in-one solution to streamline your operations.



Seamless Online Ordering Integration

Effortless Connection with Third-Party Platforms

- **Direct Integrations:** Connect directly with DoorDash, Uber Eats, Grubhub and ezCater
- **Consolidated Reporting:** View sales from all platforms in one dashboard

How It Works

Fast, Simple, and Reliable

- **Setup and Integration:** Easily connect different marketplaces through your POS
- **Menu and Price Syncing:** Automatic updates to all of your platforms simultaneously
- **Streamlined Order Processing:** Orders flow directly into your SpeedLine POS
- **Real-Time Adjustments:** Changes to menu items and restaurant hours reflect instantly across your platforms. Stock availability is updated after items are marked out of stock in the POS system

Features You'll Love

Optimized for Efficiency & Profitability

- **Price Adjustment for Each Marketplace:** Add a percent increase per third party ordering site to recoup your costs for their service
- **No Extra Hardware Needed:** Eliminates clutter from multiple tablets
- **SpeedLine Cloud Menu:** Easy updates and seamless menu changes
